

### Trolley and Buggy Restriction Policy

During certain adverse weather conditions, which may affect the course, Management will exercise their discretion to apply the below restrictions so as to protect the golf course from damage during the winter months for the benefit of the members/players.

These restrictions will be a stepped approach, or applied directly again at managements discretion.

Please see bellow restriction process:

1. Buggies allowed and Trollies allowed.
2. No Buggies allowed, Electric Trollies allowed but please carry if you can, stick to the rough, pathways where possible and away from the close mown areas where possible.
3. Push Trollies only (this does not include electric trollies without a battery) please carry if you can, stick to the rough and away from the close mown areas where possible.
4. Push Trollies only (this does not include electric trollies without a battery) stick to the 90 degree rule behind the blue ropes and on the paths where possible.
5. No trollies, players must carry their clubs. Those few with medical exemptions may still use their push trolley.
6. No trollies, players must carry their clubs. Trollies are allowed on the Willows par 3 course.
7. The course is temporarily closed.

There will be medical/disability exemptions which will be at the managements discretion and will normally require a medical proof of the inability to push/pull a trolley or carry. Management will also at their discretion consult section captains as to the suitability of certain members to receive exemptions.

Those who receive such exemptions will be asked to clearly display a red tag on their bag - This is so that other members/players who are breaking the restrictions can easily be identified and dealt with.

Any member/player abusing the use of the trollies or buggies, not adapting the 90 degree rule or sticking to the paths, run the risk of a temporary ban on using trollies/buggies or may be asked to leave the course.

Finally it is also not in the managements interest to issue course restrictions, not least of all because its affects revenue and the service we offer therefore the decision is not taken lightly. Any member who is concerned with how the policy is applied to them is requested to raise their concern with their section captain.

Regards,

David Laffar  
Director of Golf
